

## Welcome

As we start to see the signs of Spring we thought that it is an ideal time for an update on our latest insulation news. Perhaps most exciting is our new 'Total Package' of external enveloping and insulation.

Our approach builds on our very successful track record of delivering Decent Homes projects focusing on 'Added Value' through strong project management, efficient self-delivery, first class quality and high levels of resident engagement.

We have access to both CERT and CESP funding which can **reduce insulation costs by up to 90%**. The funding is dependent on the scope of works and precise locations of the properties.

Find out NOW whether funding is available for your specific properties [CLICK HERE](#) or call me on 07841 490689

## BISF External Envelope Refurbishment

Anglian has completed an external envelope refurbishment scheme for Registered Social Landlord North Lincolnshire Homes. The refurbished houses are British Iron and Steel Federation (BISF) non-traditional construction, of which approximately 35,000 were built in the UK between 1944 and 1950.

## Cavity Wall and Loft Insulation Project

Anglian were appointed to undertake insulation works to over 150 properties in and around Maidenhead. The project included a diverse range of property types including houses, low rise flats, maisonettes and Jakes House, a sheltered scheme. The scope of the works included both loft and cavity wall insulation.
