

CASE STUDY

Window and Door Replacement

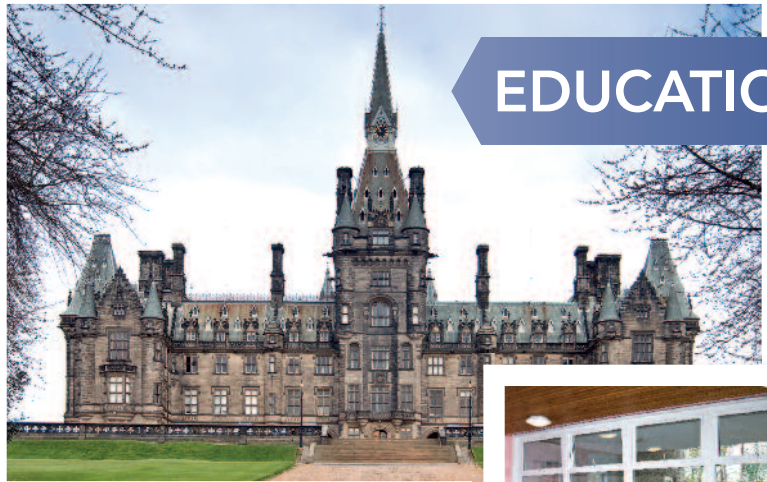

"We appointed Anglian Building Products to replace the windows in one of our girls' boarding houses. The project was professionally and efficiently managed and Anglian worked well within the constraints we placed upon them. The new windows have greatly improved accommodation for both pupils and staff. I shall definitely consider using Anglian for any similar project in the future."

PHIL HOUGHTON
ESTATES MANAGER, FETTES COLLEGE

Fettes College

FETTES COLLEGE BOARDING HOUSE

EDUCATION

Fettes College is a leading and prestigious co-educational boarding and day school in Edinburgh for children aged 7-18.

Anglian Building Products were appointed by Fettes College to replace the windows and doors at Arniston House, a three-storey boarding house within the grounds of the college.

Installation work was undertaken during the Easter holiday period to ensure that any disruption was kept to an absolute minimum.

Anglian installed tilt and turn windows to the dormitories and casement windows to two communal areas. The project also saw Anglian replace the windows and doors to the Housemaster's flat, the Head of House's flat and the House Tutor's flat.

THE PROJECT

Client	Fettes College, Edinburgh
Contract	Window and Door Replacement
Product Spec	170 Tilt and Turn Windows, 10 Casement Windows, 7 Doors, 2 Sliding Patio Doors
